

## Renzo Portella

*Manager, Technology Risk Services Group*

Renzo Portella, CISSP, CISA, is an experienced technology risk and compliance manager in Aronson's Technology Risk Services Group. With over ten years of experience, Renzo delivers comprehensive and thorough risk based approaches to meet the goals and missions of his clients. Since joining Aronson, he has delivered impactful results for clients of all sizes on matters related to financial, compliance, operational and IT risks and controls.

Renzo is responsible for establishing risk and control framework for organizations in order to use to meet internal audit, regulatory, operational, and key stakeholder demands. He has extensive experience planning, supervising, and executing IT audits to ensure compliance with policies and regulations. Renzo ensures that all his clients meet compliance and regulatory standards by providing gap assessments and remediation actions.

Prior to joining Aronson, Renzo spent eight years as a valued team member of various internal audit departments for large financial institutions.
